DETAILED ACTION

Allowable Subject Matter

1. Claims **1-25** allowed.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method, a computer-readable medium, apparatus for restarting resource reservation protocol (RSVP) processes, and a method of restarting RSVP processes in multiple network devices.

Each independent claim identifies the uniquely distinct features:

regarding claims 1, 8, 14 and 20:

sending a Hello message to the first neighbor RSVP node, in response to completing the recovery mode, wherein the Hello message comprises a Recovery Time value of zero.

regarding claim 7:

forwarding the PATH message to a downstream node with a Suggested Label in response to determining that the PATH message is being sent to a node that is not in recovery mode.

The closest prior art, Seddigh et al. US-7,317,731 and Kompella et al. US-7,359,377 disclose conventional restarting resource reservation protocol (RSVP) processes, either singularly or in combination, fail to anticipate or render the above features obvious.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
